

Sophie Mainz

Full-Stack Web Developer

A junior full-stack web developer, specializing in JavaScript, Node, React, and Cloud Computing, recent graduate at CareerFoundry. A deep love for languages and a natural curiosity fuel a desire to utilize quick learning skills and organizational finesse for impactful app development. The goal is to secure a first role as a React developer, contributing to transformative applications in the health or education sector.

- **JavaScript**, TypeScript
- **Frontend**: HTML, CSS, React, React Native, Bootstrap, Angular, Angular Material
- **Backend**: Node.js, Express, Mongoose, MongoDB
- **Cloud Computing**: AWS, Render
- **Tools**: Git, Oanda, Slack, Procreate, Canva

Language

English - Advanced
German - Native
Chinese - Competent

Software Development Projects

CareerFoundry | Berlin | Jan - Feb 2023

90s Movie App

Using the MERN stack, the backend was built with Node.js, Express.js, and MongoDB, ensuring smooth data interactions with Mongoose. Secure user authentication was implemented through JSON Web Tokens (JWT) and Passport.js for user-friendly registration, login, and logout experiences. On the frontend, a responsive React-based interface allowed users to explore and favorite 90s movies. The project, completed in five weeks, reflects a commitment to user-centric design and agile development practices.

CareerFoundry | Berlin | March - April 2023

Meet App

This React Native chat app uses technologies like Gifted Chat, Net Info, and Firebase for seamless communication. Users can personalize their chat experience, send messages, share images, and locations both online and offline. With a keen focus on accessibility, the app ensures compatibility with screen readers, catering to diverse user needs.

Experience

uni-assist | Berlin | April - August 2022, fixed-term contract

Case worker

- Evaluated international student applications from India and Bangladesh, meticulously reviewing academic records.
- Calculated admission grades, ensuring precision in the assessment process.
- Streamlined admissions processes, improving application accuracy, and provided clear communication to both applicants and universities.

Volunteer Work

Shop Assistant at Oxfam

- Managed a range of tasks at Oxfam, from inventory management to customer assistance and transactions.

Reading Mentor

- Supported primary school students by engaging in reading sessions, playing games, and assisting the teacher during classes.
